

STEPS TO VALIDATE DIGITAL SIGNATURE (DS) ON e-Certificate

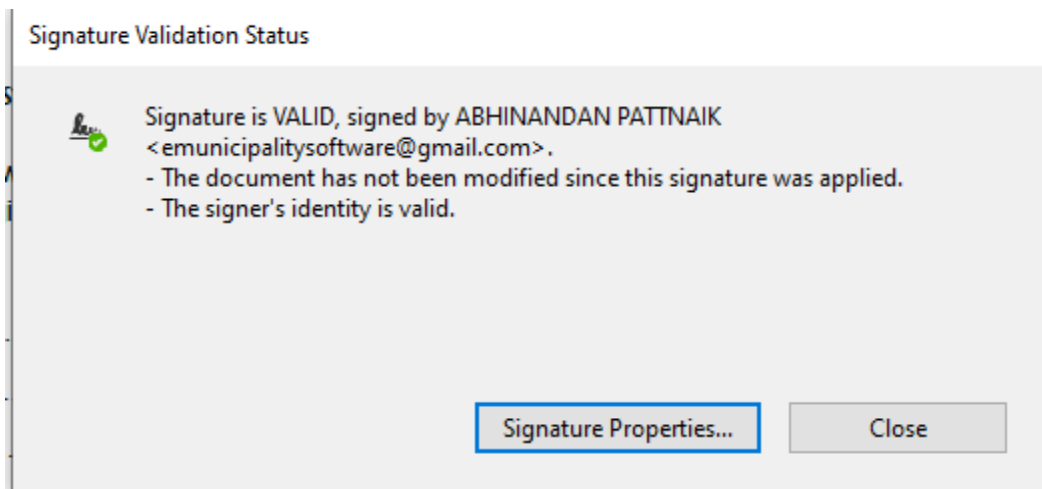

Please click on <https://www.youtube.com/watch?v=ziKXeWrYIHs> to watch our YouTube tutorial (Note: This video is made for birth certificate and the same method is also applicable for validating marriage certificate, Death certificate, Trade license certificate etc)

Step 1: User has to check the internet connectivity and availability of latest Adobe reader in system. Internet connectivity and Adobe reader are required to execute the following steps

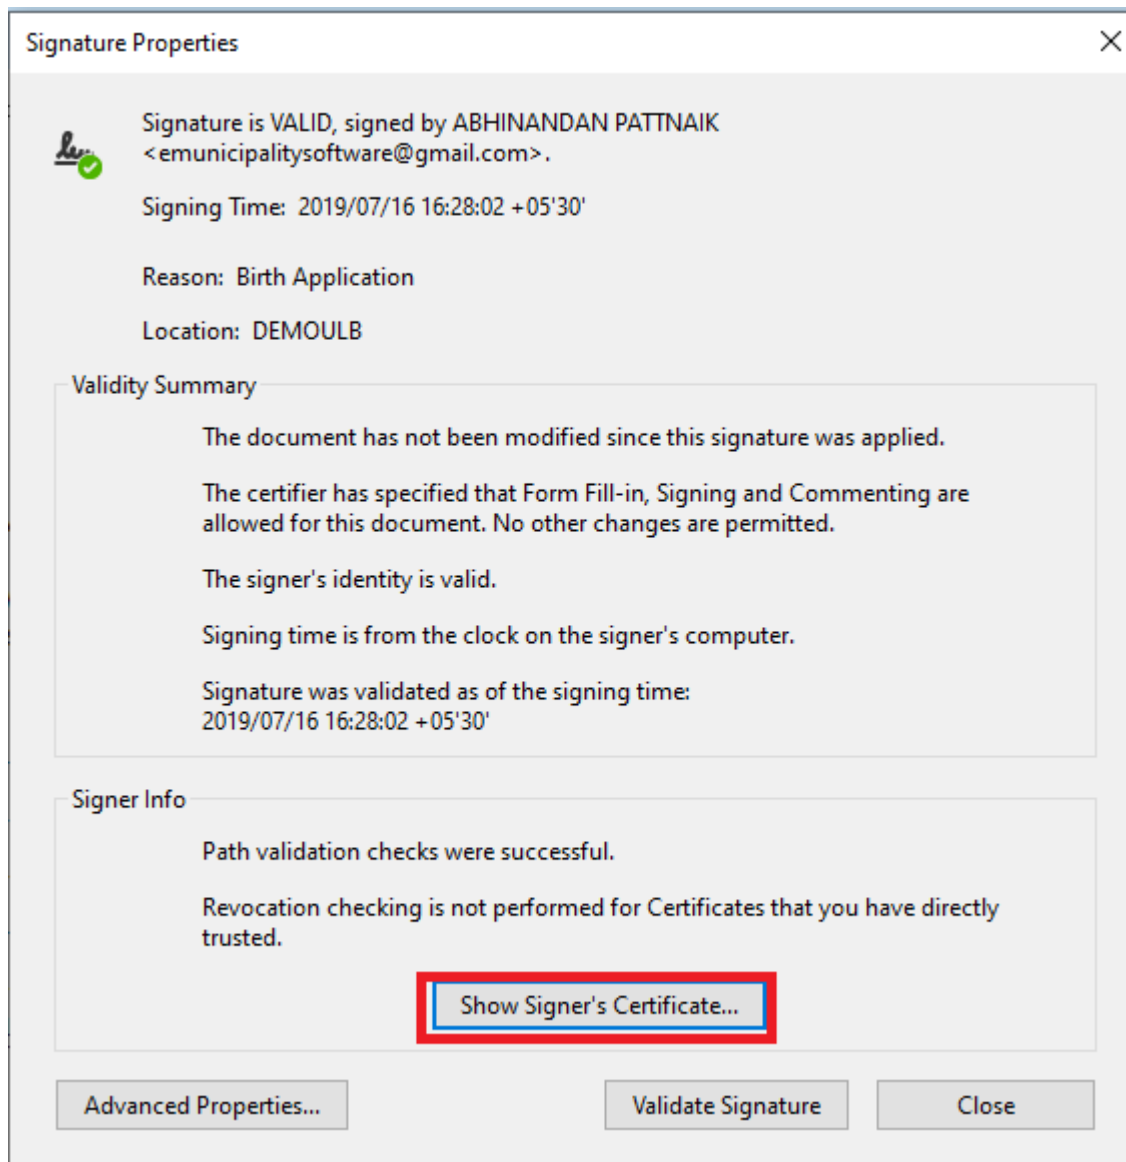

Step 2: User has to open the certificate (PDF file) in Adobe reader

Step 3: User has to click on the digital signature which is available at the bottom of certificate. A pop up called "Signature Validation Status" will open.

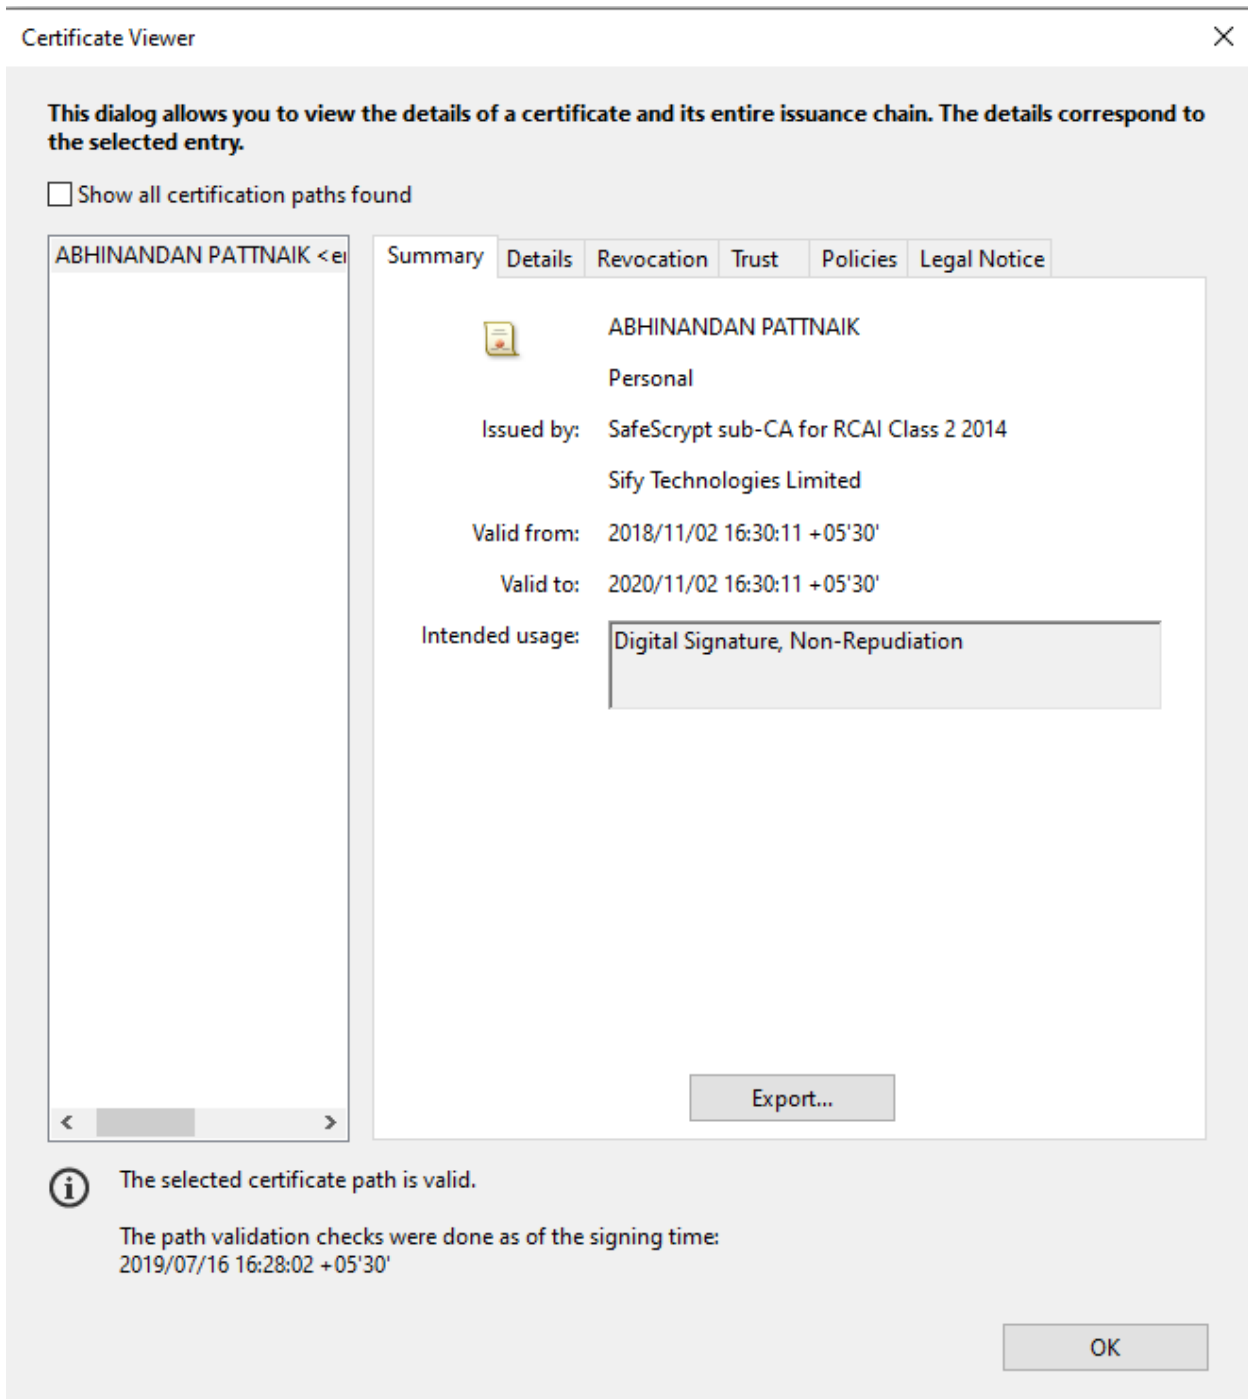

Step 4: User has to click on the "Signature Properties" button from the pop up.

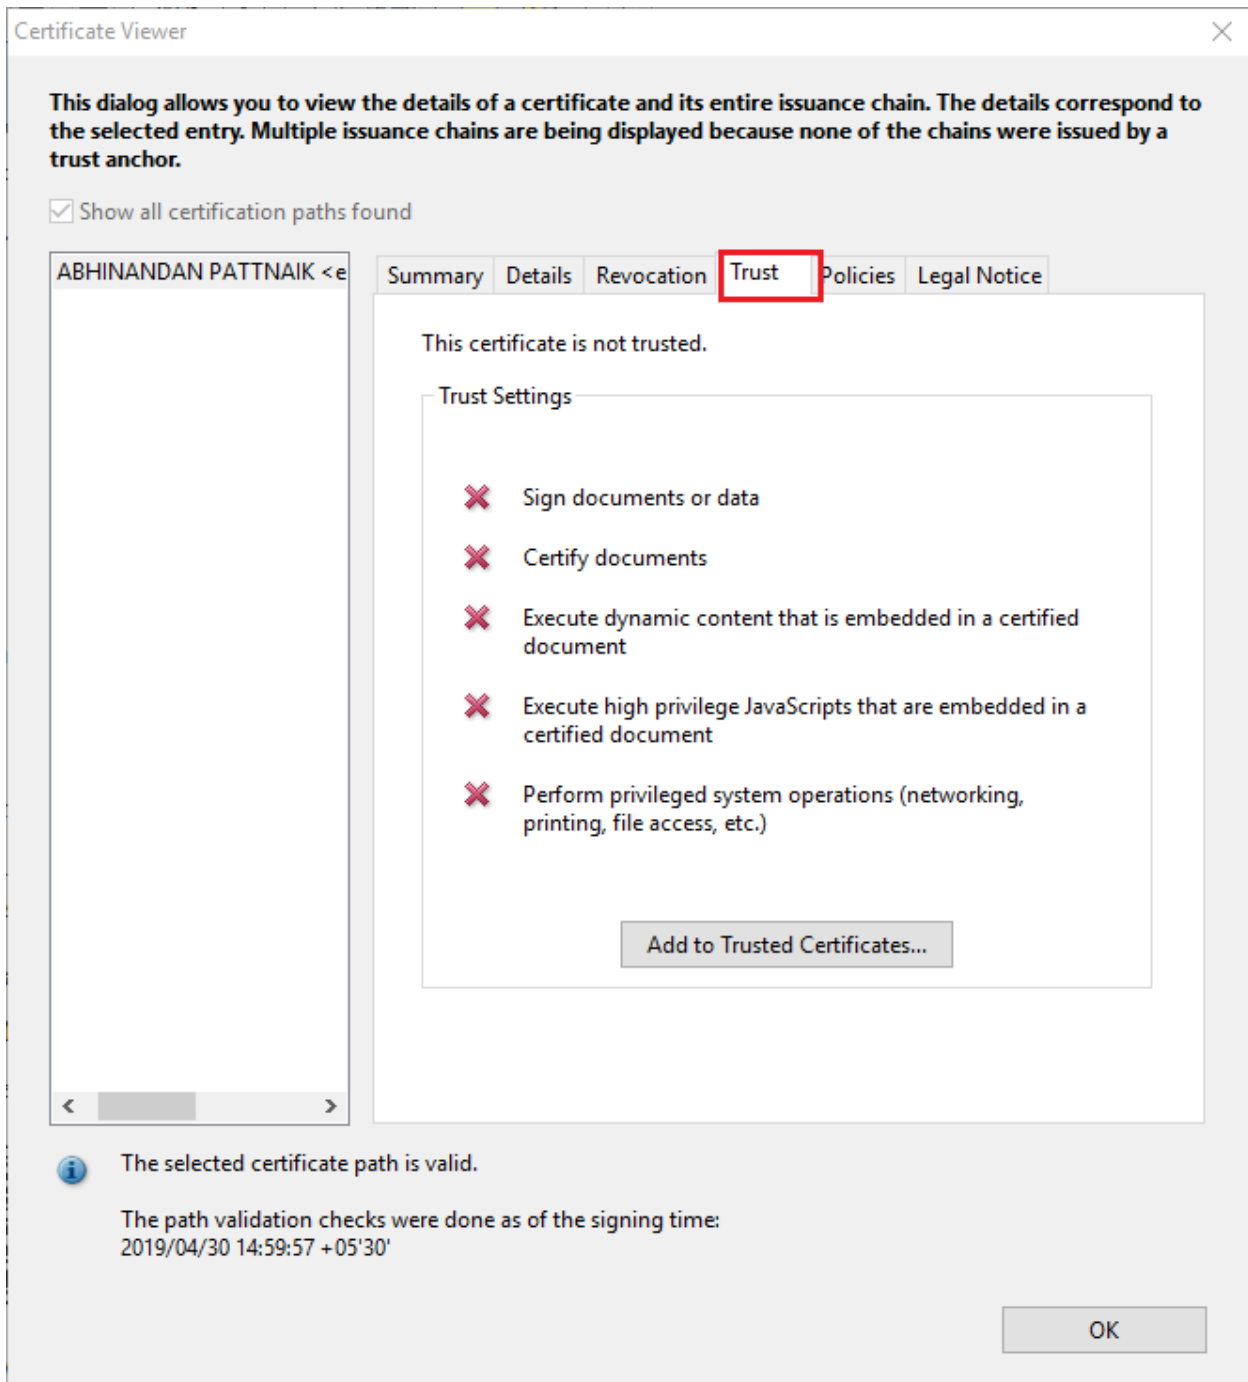

Step 5: A new pop up called "Signature Properties" will open. User has to click "show signer's certificate" as highlighted in below picture.

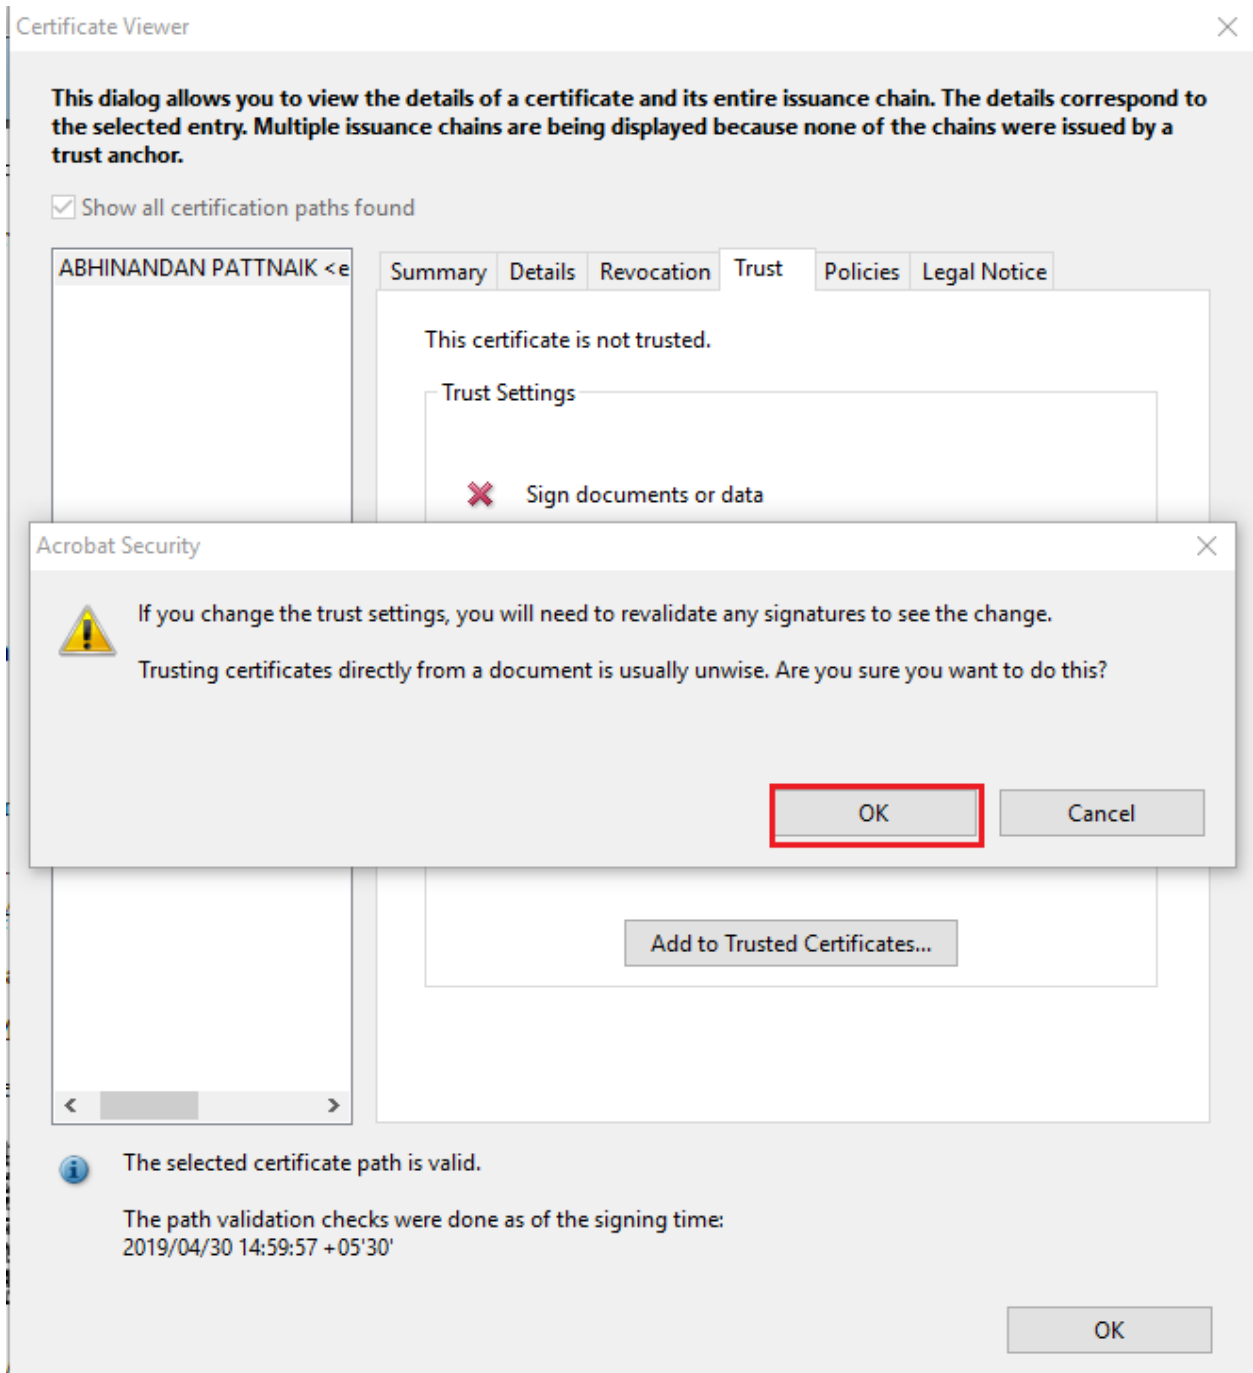

Step 6 the following screen will appear once the user has clicked “show signer’s certificate” button.

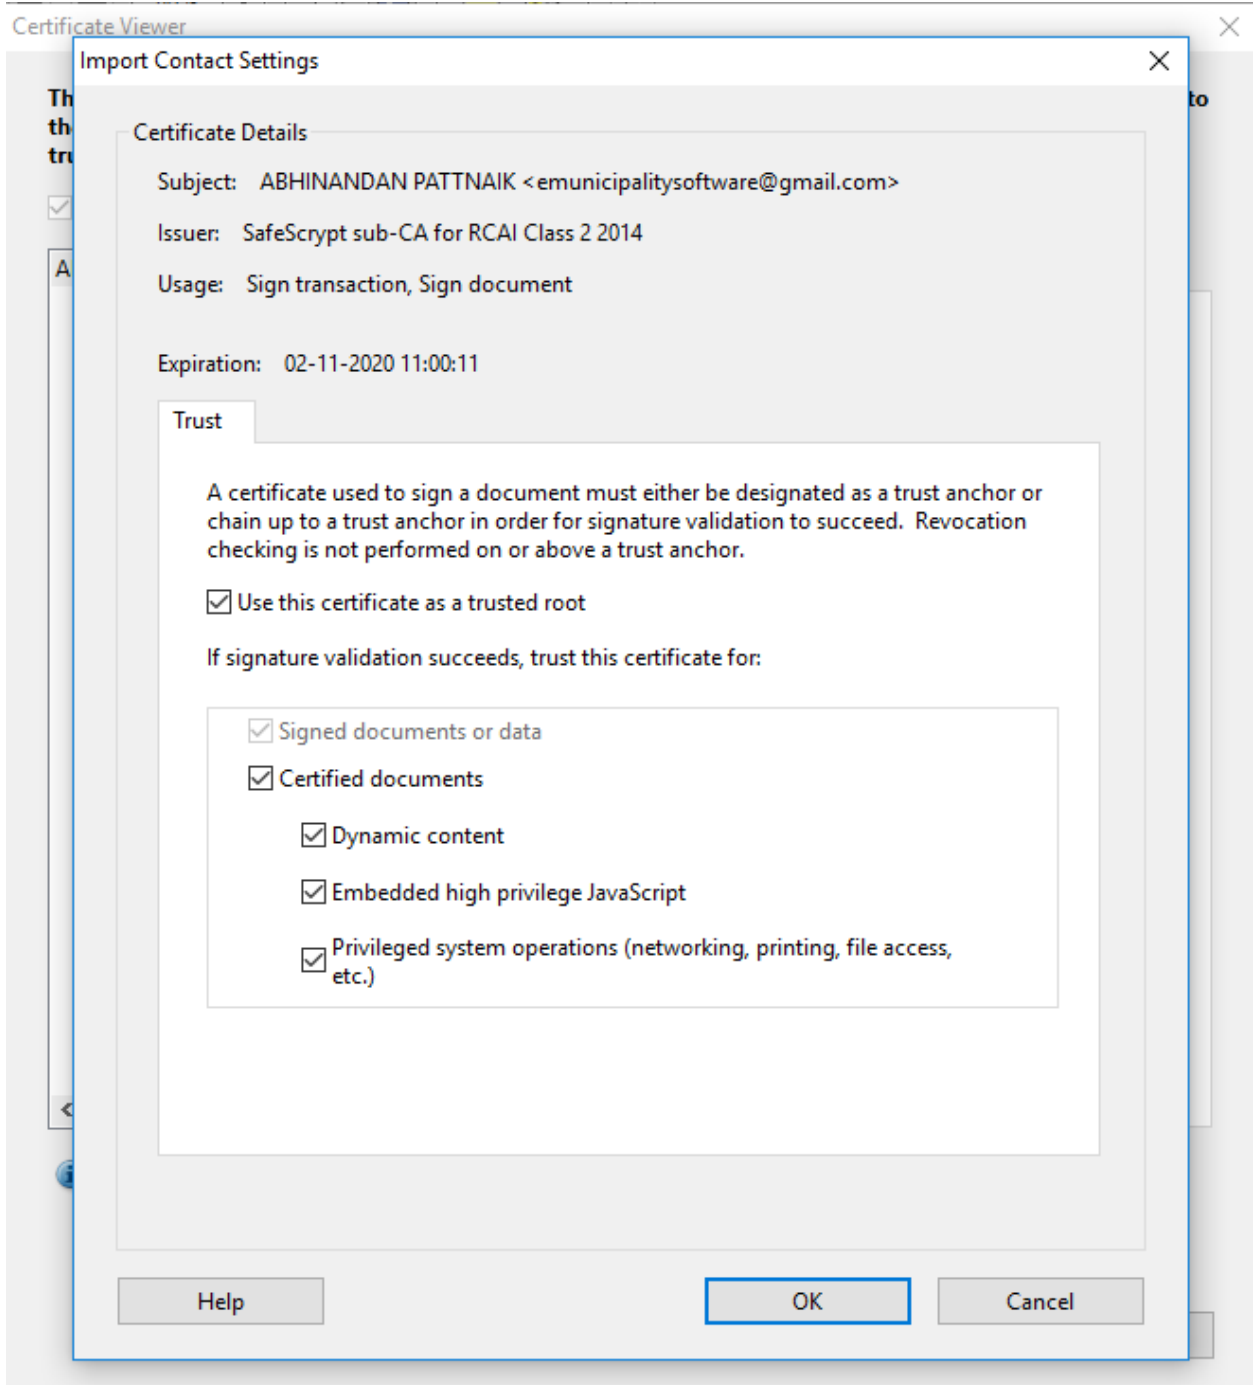

Step 7: User has to click on the “Trust” tab from the pop up which is highlighted on below picture.

Step 8: User has to click on the “Add to Trusted Certificates” button and following pop up will appear. Then click on “ok” button.

Step 9: User has to select the check boxes and click on 'Ok' button as mentioned below

On successful validation of digital signature a green tick mark will appear on the screen as mentioned below.

Signature valid
